Saint Petersburg 2016

Dear friends!

Let's join forces for educating a generation for whom a cozy home and harmony of surrounding environment will be an integral part of life!

I believe that you realize how important charity is. It is important to help, but not only help ill people and people in need, but also assist talents to grow, and to teach them to help other people!

Only thanks to dozens of volunteers – entrepreneurs, students, teachers and pensioners our Contest has been alive for 20 years and becomes better and bigger each year.

First participants of the Room of My Dream have already graduated from universities. Some of them became designers and some not. I am sure however that they understand beauty, realize how important their Home is and can help others!

**Together we can make our world better!
Join us!**
